

March 23, 2020

To: State or local law enforcement and public health & safety officials

Re: Notice of Engagement in Essential Business / Essential Travel

BPM Microsystems, Inc. is deemed to be an essential business.

On March 23, 2020 the Cybersecurity and Infrastructure Security Agency (CISA) listed **ESSENTIAL CRITICAL INFRASTRUCTURE WORKERS DURING COVID-19 RESPONSE** to help state and local officials as they work to protect their communities, while ensuring continuity of functions critical to public health and safety, as well as economic and national security. This list includes several segments that BPM Microsystem's business operations support. Those segments include, but are not limited to: **Workers necessary for the manufacturing and distribution of products needed for medical supply chains and for supply chains associated with transportation, energy, food and agriculture, waste pickup, chemical manufacturing, nuclear facilities, water and wastewater treatment, emergency services, and the defense industrial base.**

All BPM Microsystems employees have been instructed to comply with the Social Distancing Requirements in order to minimize the spread of the virus that causes COVID-19. All non-essential BPM Microsystems employees have been instructed to work from home.

Sincerely,

Jon Bondurant
